## Newsletter December 2021

Hello ,  
We have got pension news for you.

### PDN's ambitions

PDN is pursuing a number of ambitions. One of these ambitions is pension indexation or full pension indexation, i.e. adjusting pensions and pension accrual to changes in value. With this, we want to preserve the purchasing power of pensions, now and in the future.

### Simplicity is key - also in 'My PDN Pension'

Many of you already know how to find 'My PDN Pension' on our website. And, of course, we're delighted with this. But can we make our portal more user friendly? The member survey conducted previously by PDN showed that you as a participant are looking for more insight and clarity. And this as easily as possible. As pension fund we're always looking for how we can improve things and this time especially for 'My PDN Pension'.

### Pension Agreement

A topic that we keep returning to in our communications is the pension agreement and the route towards a new pension scheme (the new pension contract). The bill is expected to be sent to the Dutch House of Representatives toward the end the first quarter of 2022. As things stand now, the new pension contract will come into effect on January 1, 2027. The employer, DSM, and trade unions play a particularly important role in this. As the new pension contract will affect you all and it is vital that preparations are sound and thorough, we'll keep you informed of developments. You can also keep checking our website, where we are uploading all communications about the pension agreement under the 'Pension Agreement' tile.

## What are your needs?

We would like to know how our members view our services and communication. And where we could improve. A research agency conducted the 'Benchmark Monitor Pension Funds' (BMP) in spring 2021. This showed that, in general, members are satisfied with the fund. Of course, there's also room for improvement. **What could be improved?**

*All the best to you all and your relatives and a good and especially healthy 2022.*
