

We have some news regarding your pension

As is usual, on January 1, legal amendments will be implemented that will impact deductions on your pension benefit. This means that your net pension benefit will differ from the amount paid out by Pensioenfonds PDN in December 2025. This newsletter will set out the most important changes.

Your benefit statement

You will receive the benefit specification by post if you have always received it by post. Everyone who opted for 'digital' will receive the specification in the digital mail folder. We provide the benefit specifications for everyone, even if you receive them by post, in 'My PDN Pension'.

January 2026: changes to the net pension benefit

If your net pension benefit changes as of 1 January, this is due to changes in tax and social insurance contributions.

- Changes to the Zorgverzekeringswet (ZVW, Healthcare Insurance Act) income-related contributions. The ZVW statutory contribution will fall to 4.85% in 2026 (2025 level: 5.26%). Pensioenfonds PDN is legally obliged to withhold this amount on annual income of max. €79,409 (2025 level: €75,864). These are Government decisions on which the pension fund has no influence. You can find more information on this topic on the Belastingdienst (Dutch Tax and Customs Administration) website.

➤ Tax brackets

Are you still to reach state retirement age (AOW)?

In 2026 there will be three tax brackets that apply to you.

- Taxpayers with an income up to and including €38,883 pay a tax rate of 35.75%.
- Taxpayers with an income from €38,884 up to and including €78,426 pay a tax rate of 37.56%.
- If you have a higher income, you pay a tax rate of 49.50% on the part from €78,427.

Did you reach state retirement age (AOW) before 2026?

In 2026 there will be three income-related tax brackets that apply to you.

- Taxpayers with an income up to and including €38,883 pay a tax rate of 17.85%*.
- Taxpayers with an income from €38,884* up and including €78,426 pay a tax rate of 37.56%.
- The tax rate is 49.50% on your income from €78,427.

The table shows the difference between the tax brackets in 2025 and 2026:

	On income up to €38,883*	On income that is more than €38,883* and max. €78,426	On income from €78,427
2025	17.92%	37.48%	49.50%
2026	17.85%	37.56%	49.50%

* if you were born before January 1, 1946, this amount is €41,123

If you do not live in the Netherlands

If you do **not** live in the Netherlands, tax credits take a smaller amount into account. Tax credits are credits against your tax on wages and income taxes. As a result of the reduced tax credits, you will pay more in tax on wages. This means that your pension fund will pay out a reduced pension benefit. Your payment statement details what this means for you. The wage income tax table that you fall within depends on the country in which you live. You do not need to take any action. This will be processed automatically. For more information, please refer to [Belastingdienst](#) (Dutch Tax and Customs Administration) website.

The fiscal annual statement

The fiscal annual statement of the pensions paid by Pensioenfonds PDN in 2025 has been sent. It will be saved in your digital inbox in '[My PDN Pension](#)' as well. The fiscal annual statement is required to file your tax returns over 2025. We advise you to carefully compare the annual statement provided by PDN with data already filled in on your tax returns.

Good to know: Additional income tax assessment

By opting to let Pensioenfonds PDN withhold more tax and social insurance contributions on a monthly basis, you can prevent an additional income tax assessment. PDN cannot calculate the adjustment you must make to your tax and social insurance contributions for this purpose. You must personally, or with the assistance of a financial advisor, calculate the adjustment and specify this to PDN, by letter.

2026 payment dates

January 27
February 27
March 27
April 24
May 27
June 26
July 27
August 27
September 25
October 27
November 27
December 18

Pensioenfonds PDN will ensure that your pension will be deposited on your account on the 27th day of each month. Should the 27th fall on a weekend day, PDN will ensure that your pension is deposited before then. In December you will receive your pension also earlier.
