Board reaches provisional transition decision

In June 2026, we informed you that the Board would be using the summer to hold very intensive consultations with the employers, unions and with De Nederlandsche Bank in order to produce a transition decision 2.0. The social partners also held further consultations with the PDN Pensioners' Association (VDP) as part of this process. These consultations are now reaching their final conclusion.

Board further hedges the risk of a fall in the funding level

Why

Pensioenfonds PDN aims to transition to the new pension system on 1 January 2027. The funding level on that date is important for you. The higher the funding level, the more assets PDN can allocate to members on a one-off basis to increase their pension pots. This particularly benefits those already receiving a pension (pensioners, surviving dependants and members who are fully incapacitated for work), as their pensions will rise immediately in 2027.

A focus on your pension horizon

The campaigns about your pension horizon have already started. Pensioenfonds PDN focuses on a group of members each time, providing them with information about the new pension system and what this means for them.
