## Newsletter March 2025

Hello ,  
We have got pension news for you.

### Postponement of transition date

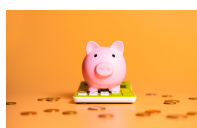

# 2027

The new pension starts on 1 January 2027

## The new pension starts on 1 January 2027

(instead of 1 January 2026)

We previously informed you that the transition to the new pension was due to take place on 1 January 2026. Pensioenfonds PDN recently concluded that this transition needs to be postponed to 1 January 2027. This Newsletter explains why the Board decided to postpone the date and what this means for you.

### The new pension transition date has been postponed: Care over speed

#### Switching to the new pension is complex and time-consuming

Twenty-five pension funds wanted to switch to the new pension on 1 January 2025, but discovered that the process involved in this is extremely complex and time-consuming.

Ultimately, just three of those 25 funds actually made the switch to the new pension on 1 January 2025. The other funds postponed the date.

### What does the postponement of the transition to the new pension mean for you?

There will be no changes to your pension until 1 January 2027. On 1 January 2027, you will switch to the new pension.

At that point, the funding level is important, as this reveals whether Pensioenfonds PDN has more assets than needed for a balanced transition to the new pension. If the funding level is higher than 109% (a buffer of more than 9%), PDN can distribute the surplus among everyone who has a pension with the fund.

Read more about the importance of the funding level and how any buffer is distributed [here](#).
