Pension comparison: Compare two pension schemes

Why compare your pension scheme?

Pension schemes differ. By using this comparison, you get an idea of the differences between two pension schemes. Amongst other things this tool shows you what you are entitled to and what is not. Take a look at the differences and consider their impact on your situation. Once this is clear, you may choose to take action yourself. Being aware of the differences is also one of the steps to be taken when considering a value transfer: do you transfer your pension to your new pension provider or don't you?

5-Step comparison of your pension scheme

Fill out this pension comparison step by step. Terms and notions used are explained in <u>Pension 1-2-3</u> on the PDN's website. Using layer 1 of the Pension 1-2-3 of your current pension scheme as a reference, compare it with PDN, which is already printed in the left-hand column.

Step 4: How secure is your pension?

Note

The amount of pension you will receive is in most cases uncertain at this very moment. In this step you can make sure whether the pension amount is fixed or not. Or whether your pension increases along with price increases or wages and whether your pension can be lowered, e.g. due to low funding levels. *Please note: The lower the policy funding level, the bigger the chance for pension cuts.*

Step 5: Now consider the importance of any differences for you

Now that you are aware of the differences between these two pension schemes, consider the importance of these differences for you personally. Think of the impact these differences may have on you. You might consider to arrange for an additional provision yourself. Do you require more detailed information on the differences found, and are you curious to learn how these impact your pension amount? In that case you should contact your pension fund, an insurance company, your employer or a consultant.
